Mind Matters 2026

DELHI PUBLIC SCHOOL BANGALORE SOUTH

MIND MATTERS

30th & 31st October

An Initiative by the Peer Educators for Well-being

FROM THE PRINCIPAL'S DESK

It gives me immense pleasure to welcome you to Mind Matters - the Mental Health Conclave, an initiative that continues to strengthen our commitment to the emotional well-being of young people.

At DPS Bangalore South, we believe that mental well-being must move beyond awareness to become a shared culture of understanding, empathy and action.

Mind Matters seeks to create just such a community of practice - bringing together students, educators and experts to listen, learn, exchange perspectives and collectively build more compassionate school communities.

At the heart of the conclave lies our commitment to providing every child with a voice and a meaningful platform for expression. Through thoughtfully curated competitions and creative platforms, students are encouraged to explore themes of well-being, resilience, relationships, belonging and self-expression. Whether through words, art, performance, dialogue or ideas, these spaces enable young people not merely to participate in conversations about mental health, but to shape them.

The conclave is also an opportunity to learn from one another - because meaningful change occurs when individual experiences become shared understanding and shared understanding translates into collective responsibility.

As we embark upon our third edition, I hope Mind Matters continues to grow as a platform where voices find expression, experiences find acceptance, and conversations inspire action. For when we create communities that listen with empathy and respond with sensitivity, we do more than support well-being - we empower our children to become advocates for themselves and for one another.

Anitha Bijesh
Principal
Delhi Public School Bangalore South

WHO ARE PEER EDUCATORS?

The Peer Educators are nominated and selected as "Mental Health Ambassadors" and leaders educating and creating awareness on Mental Health and Well-being in our school and the community.

CONCEPTUALIZATION OF THE CONCLAVE

The Mind Matters Conclave was conceptualized in 2023, initiated by our peer educators to build awareness around mental health. At Delhi Public School Bangalore South, we believe that true awareness comes from experience. To engage students meaningfully, our conclave features a range of challenging and thought-provoking activities from interactive workshops and case-study challenges to creative expression through art, theatre and storytelling. These activities push students to reflect, collaborate and step out of their comfort zones while learning about stress management, resilience, empathy, and emotional wellbeing. All our initiatives are centered on mental health issues to create awareness, break stigma and equip students with the tools to support themselves and others. Through Mind Matters, our school is committed to building a compassionate community where every student feels heard, understood and empowered.
